PROFESSIONAL SUMMARY

Full Stack Developer with hands-on production experience building **MERN Stack and Django applications**. Experienced in developing RESTful APIs, JWT-based authentication, role-based authorization, MongoDB data modelling, location-based search, and real-time applications using Socket.IO. Skilled in deploying containerized applications on Linux VPS environments using Docker and building responsive interfaces with React.js and Bootstrap.

WORK EXPERIENCE

Draptor Technologies | Full Stack Developer Intern Mar 2026 – Jun 2026

- Built 3 production-grade MERN Stack applications with RESTful APIs, serving real users on a live platform.
- Deployed production-ready MERN Stack applications on a Linux VPS using Docker and managed containerized services for reliable and scalable application hosting.

EDUCATION

BSc in Computer Science 2022 – 2025
Periyar University, Salem, Tamil Nadu
CGPA : 6.5

PROJECTS

E-Commerce Web Application | github | live-url
Tech Stack: Django Full Stack

- Built a full-stack Django E-Commerce platform supporting user authentication, product catalogue management, cart, and checkout flow across 50+ product listings.
- Designed a responsive Bootstrap UI with secure form validation, CSRF protection, and reusable templates.
- Implemented Django ORM backend using Python OOP principles with reusable, scalable model methods.

Badigemane – Property Rental Platform | live-url
Tech Stack: MongoDB, Express.js, React.js, Node.js

- Designed and built 10+ REST API endpoints with MongoDB data models supporting property listing, filtering by location, price, and type, and paginated search results.
- Implemented JWT-based authentication and role-based authorization for secure multi-role access.
- Built property search, filtering, and pagination APIs to improve browsing efficiency across large listing datasets.

Cricket Tournament Manager | live-url
Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO, PDFKit

- Built a full-stack live cricket scoring platform with real-time ball-by-ball updates, over history tracking, and innings management using Socket.IO WebSocket integration.
- Created a dynamic tournament points table with automatic standings and statistical updates.
- Generated branded sponsor and tournament reports in PDF format using PDFKit

SKILLS

Languages: Python, JavaScript, HTML5, CSS3

Frontend : React.js, Bootstrap, Responsive Web Design
Backend : Node.js, Express.js, Django, RESTful APIs

Databases: MySQL, MongoDB, SQL

Tools & Platforms: Git, GitHub, VS Code, Vercel, Render, Docker, Postman

Other Skills: REST APIs, JWT Authentication, WebSockets, Responsive Design, DOM Manipulation, OOP

CERTIFICATIONS

Python Full Stack Development with Django – IT Vedant

SOFT SKILLS

Team Collaboration • Problem Solving • Quick Learning • Time Management • UX Awareness • Adaptability
